

Immediate Over-the-Phone Interpretation
by LIVE interpreters in 100+ languages

Ten Reasons Why Our Service is the Best

Here are 10 reasons why you should give WTC Language Services LIVE Over-the-Phone Interpretation a try...even if you already use other interpretation services:

1. **Special WTC discount** – World-Class interpretation for less than the cost of a business meal.
2. **Combine WTC Interpretation with the FREE WTC Conference Calls UNLIMITED** monthly conferencing packages – for even more powerful global communications at discount prices.
3. **ACCURATELY communicate** in business meetings, negotiations, & presentations – whether in-person or on the phone. Expand your customer base – personally market to new & current clients. For all situations – pre-arranged client meetings or unplanned customer visits.
4. **60-second connection time to interpreters ON DEMAND 24 hours a day** (for most common language pairs – contact us for connection times for less-frequent language pairs).
5. **Convenient & ECONOMICAL** – no wasted time searching for a qualified interpreter. Save time & money – don't hire an in-person interpreter for a short call...access your WTC Interpreter via phone!
6. **Access a network of 1,200 professional, certified interpreters** – skilled in live interpretation in 100+ languages – available every day, 24 hours a day. Skill levels rigorously tested & re-tested.
7. **Multiple-language to multiple-language interpretation capabilities** – we offer MORE than just interpretation between English and other languages.
8. **Convenient to sign up and use** – simply complete the 1-page application, and you will receive a special toll-free dial-in number to access the interpreter network, along with a CIN (Corporate Identification Number) to identify your account for subsequent live interpretation sessions.
9. **State-of-the-art call center technologies:** Telecom carrier-grade digital switch and Interactive Voice Response system. Dual-redundant on-site hot standby backups; diesel generator and UPS battery power. Two separate and parallel telecom carriers, resulting in zero service interruptions.
10. **We put the services of a language specialist at your fingertips, INSTANTLY:**

In addition to their skill in the cultural & language nuances you need interpreted, our industry specialists have expertise in the specific industry you need translated, including these areas:

- import/export marketing and sales, retail channel partners, wholesale distributors
- telecommunications
- hospitality, tourism, travel, and transportation – whether in your country or abroad
- legal services, business and industry
- agriculture
- financial services, real estate, insurance, investments
- all levels of government, social services, immigration
- emergency, police, fire, and health care services
- utility companies, energy companies

Immediate Over-the-Phone Interpretation
by LIVE interpreters in 100+ languages

Ten Ways You Can Profitably Use Over-the-Phone Interpretation

Here are some of the profitable ways that you can benefit from the WTC Language Services Over-the-Phone Interpretation program:

1. **Your can converse in over 100 languages ACCURATELY & IMMEDIATELY** in business meetings, negotiations, & presentations – whether pre-arranged client meetings or unplanned customer visits, whether on the phone or in-person (by connecting an interpreter to a meeting via speakerphone).
2. **WTC Members, Tenants, and Affiliated Companies** – law firms and corporate legal departments, financial planners, bankers, accountants, manufacturers' reps – all can expand their customer base by personally marketing to new & current clients regardless of their native language, by using this high-quality, economical Phone Interpretation service to negotiate, make presentations, interview potential employees and representatives, and discuss initiatives in their global partners' languages with ACCURATE understanding.
3. **Global trading companies, exporters, and importers** can discuss vital business details in over 100 languages with overseas partners, customers, suppliers, government officials, logistics companies and shipping companies, consultants, retail and wholesale distributors, agents, bankers and financial institutions, market researchers, engineers and designers.
4. **Law Firms and Corporate Legal Departments need Phone Interpretation** for real-time depositions, translation of testimony, contract discussions, multi-party negotiations, financial arrangements, legal disclosures, and statutory language requirements.
5. **Technology, software & web site development teams** – global workgroups often may include participants whose first language is not English. Especially when combined with the WTC Conference Calls program, Phone Interpretation can bring together work groups and ensure that crucial project details, instructions, deadlines and schedules are accurately communicated and understood. Shared understanding can enhance speed-to-market and ensure frictionless flow of communications and on-time completion of projects.
6. **Multinational companies need Phone Interpretation in over 100 languages** – for clear communication from headquarters to colleagues in local countries, and to ensure accurate reporting of local conditions back to headquarters. Headquarters corporate executives can be stationed in-country more quickly, using Phone Interpretation as a convenient bridge to their own development of native language skills, facilitating accurate and immediate communication with local contacts in their own language.
7. **Retail distributors and international sales departments** can easily communicate with their channel partners worldwide without language barriers. With the services of WTC Phone Interpretation language specialists at their fingertips, any company can expand into new markets and more effectively manage existing retail and wholesale distribution channels – whether to update new product introductions, to give directions from headquarters, or to gather accurate, first-hand information about local problems and opportunities.
8. **Manufacturers can easily communicate with off-shore operations** in the local language to clearly communicate plant and facilities operations, manufacturing procedures, equipment and maintenance instructions, corporate policies, to resolve export/import problems, and ensure quick feedback to headquarters of problems and opportunities.
9. **Phone Interpretation can enhance real-time communications** in numerous areas, including telecommunications, hospitality, tourism, transportation, legal services, agriculture, financial services, real estate, insurance, investments, public utilities, customer service call centers, educational institutions – whether in-country or abroad.
10. **Phone Interpretation can provide access for non-English speakers to all levels of government services** – including social services, education, immigration, emergency services, police, fire, and health care services.

Here's an opportunity you to expand your global business prospects. You can create goodwill and build new relationships – your global partners will be grateful and impressed with your effort to communicate in their native language. So don't delay, get started today and expand your market worldwide.
